Rocket Wheels™ is the toy where vehicles speed through pipes instead of on top of tracks which is DEFY GRAVITY. The vehicle is remote controlled. Pipes themselves are a construction system, like no other. The pipes 360° degree connections allow for building in 3-Dimensions. Kids are able use their imagination and build endless configurations.

MiNG
The Minibus™©

INTRODUCTION

An original cartoon series of Hong Kong that serves as a signature icon of this city, widely enjoyed by families of different nationalities and recognized as one of the most popular local cartoons. Dubbed with English and Chinese subtitles, the series advocate peace and love, environmental protection and harmony through the medium of images and music, produced by a professional team from the U.S.

The 52-episode stories feature different parts of the world, allowing children to learn from various cultures. Besides cartoons, children can find Ming magazines and DVD as well as Ming the Minibus themed indoor playground, the biggest of the kind in the city, which increase Ming's popularity among the local young generation.

BALANCE BATTLE

Put 4 balls of different colors into the corresponding color positions, and do not misplace them during the period, and the fastest to complete wins.

BOWLING BATTLE

Each player can throw the ball twice in each round, and whoever hits the most cups will get a point for one round, and the one with the fastest five points will win.

SOCCER BATTLE

Put the stick into the bottom of the table and magnetically attract the wooden player, and then control the ball to hit the opponent's goal, and then press the edge of the table to release the next football, whoever gets 5 balls first will win.

THROW BATTLE

Throw the color plates on your side inside the high platform, and the fastest to throw 4 plates will win.

孔子 CONFUCIUS

9” Talking statue

Confucius, (551–479 BC) was a Chinese teacher, editor, politician, and philosopher of the Spring and Autumn period of Chinese history. The philosophy of Confucius emphasized personal and governmental morality, correctness of social relationships, justice and sincerity. Confucius is traditionally credited with having authored or edited many of the Chinese classic texts including all of the Five Classics, but modern scholars are cautious of attributing specific assertions to Confucius himself. Aphorisms concerning his teachings were compiled in the Analects, but only many years after his death. During Han Dynasty, Confucius thoughts received official sanction and were further developed into a system known as Confucianism. Within the Analects, he is often referred to simply as "the Master" He was also declared the "Extremely Sage Departed Teacher" and "Model Teacher for Ten Thousand Ages".

孔丘（前551年－前479年），字仲尼，後代敬稱孔子或孔夫子。東周春秋末期魯國的教育家與哲學家，曾在魯國擔任政府要職。為易學、儒學和儒家的創始人。而孔子儒家的德性論五行思想（仁義禮智信）對鄰近地區，如：朝鮮半島、琉球、日本、越南、東南亞等地區有著深遠的影響，這些地區也被稱爲儒家文化圈；孔子儒家的太極、理、氣和人文思想對西方也產生了深刻影響。孔子正是這時代精神的代表人物與集大成者，遂開戰國諸子百家之先河。《易傳》，《春秋》，《孝經》，《論語》是了解其本人思想的主要著作。到漢朝時漢武帝施行「獨尊儒術」政策，後世統治者陸續尊稱孔子為聖人、文聖、至聖、至聖先師、萬世師表。
